

Honored by the NY League of Conservation Voters

On October 1, we were honored at this year's New York League of Conservation Voters (NYLCV) New York City Cocktail Party. With nearly 300 attendees, the evening was a powerful testament to how many people and organizations are working to help New York achieve its sustainability goals. We are grateful to have been recognized for our hard work and dedication and for the support of NYLCV President Julie Tighe and Congressman Adriano Espaillat.

As our own Adam Cohen wrote in a song for the evening:

*"Road trippin' with my NineDot allies, fully charged for
the peaker plant demise.*

It's time to green this town, it's time for carbon free.

Let's go charge up all across the NYC!"

\$40 million tax equity financing

NineDot Energy has secured its **first ever tax equity financing**, facilitated by [Monarch Private Capital](#) and involving seven battery storage sites, which will bring in over \$40 million. With more than **50 projects** in development, construction, or operation, this capital supports our work in providing clean, reliable energy to NYC neighborhoods—[like how our Bronx site supported the grid](#) during this summer's heat waves. This financing brings our total capital raised to **\$450 million**.

Moving beyond "stationary" storage

At NineDot, stationary, community-scale batteries are the mainstay of our business, but we have been **exploring opportunities to expand our presence into electric vehicle charging and mobile battery solutions**. During NYC Climate Week, we had the chance to spend time with fellow advocates of this approach.

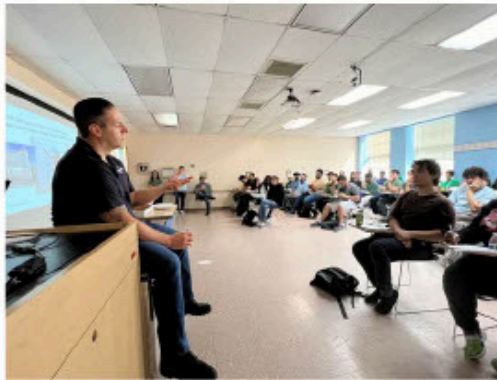

First, we [co-hosted a happy hour with partners across the battery and EV industries](#). Later, we celebrated our award from [The Clean Fight Energy Storage Capital Challenge](#), which will help bring our first mobile battery project to life in NYC. This project, featuring NY-manufactured batteries from [Viridi](#), will demonstrate how mobile batteries can be a cleaner alternative to diesel generators, especially in congested areas like New York City.

Stay tuned for more announcements in the coming months! **If you have EV or mobile battery related questions, reach out [here](#).**

Building community connections

In September, our VP of Construction [Anthony Santamaria delivered an "Industry Talk"](#) to more than 50 students and faculty at the [City University of New York-College of Staten Island](#), sharing his insights and experience in the renewable energy industry. We then hosted those CSI students and professors, along with professionals from NYCEDC and more, for [a tour of one of our nearly completed battery sites in Staten Island](#), where visitors asked thoughtful questions about the technical aspects of the site and the broader energy transition.

On October 17, in collaboration with the [Downtown Brooklyn Partnership](#), we hosted a group of students for a tour of our office, and NineDotters Anna, David, Harold, and Joe shared their experiences working at a clean-tech startup, emphasizing the importance of relationship-building, exploring new projects, and bringing passion into work.

Connecting with NineDot

You can find NineDotters out in the community year-round, attending events and engaging with industry leaders, partners, and local stakeholders — here's a few places we'll be in the coming weeks. **If you're attending any of these, be sure to stop by and connect with us!**

- [DG Development & Finance Forum 2024](#) – Hear from our CEO David as we explore the latest in distributed generation and finance trends on 10/24

- [NY-BEST Fall Energy Storage Technology and Innovation Conference](#) – Meet NineDotters in Binghamton on 10/24
- [GridTECH Connect Forum – Northeast](#) – Meet Sam Brill, Vice President of Strategic Development, in Newport on 10/28
- [Decarb NY Winter 2025](#) – Hear from Vice President of Construction Anthony Santamaria in NYC on 1/15

We're hiring!

Our team is still growing! NineDot is looking to fill these roles with people ready to join our fight for a clean energy future.

- [Paralegal](#)
- [Project Development Associate](#)
- [Senior Project Accountant](#)

Check out our [website](#) for all of our current open roles.

We Are Looking for NYC and Westchester Properties for Battery Storage Sites – Will Cover Legal Fees
